Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Continuation Sheet

1.   Claims 1-10 are pending.

2.   **Applicant's Argument:**

"Storing data on a remote server in response to a request to store data from an application running on the user device is nowhere disclosed or suggested in Yanosy. Rather, Yanosy merely discloses to provide access to a remote service provider is in response to a service augmentation."

3.   **Examiner's Response:**

The Examiner respectfully disagrees. The purpose of *Yanosy* is to provide additional resources for Device Application 103 when required as discussed in the Abstract and Paragraphs 0004 and 0005.

Furthermore, as discussed in Paragraph 0030, **the Mobile Device Application 103 makes a request** to store auxiliary data, enabling the Virtual Operating System 104 to connect to the virtual local storage via the network and store said data (Paragraph 0026).
